DIVISION OF SCIENCE RESOURCES STUDIES

The Division of Science Resources Studies (SRS) fulfills the legislative mandate of the National Science Foundation Act to ...

provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal Government...

To carry out this mandate, SRS designs, supports, and directs periodic surveys as well as a variety of other data collections and research projects. These surveys yield the materials for SRS staff to compile, analyze, and disseminate quantitative information about domestic and international resources devoted to science, engineering, and technology.

If you have any comments or suggestions about this or any other SRS product or report, we would like to hear from you. Please direct your comments to:

ACKNOWLEDGMENTS

This report was prepared by John Tsapogas and Lawrence M. Rausch, Division of Science Resources Studies (SRS), National Science Foundation and Mary Collins, Westat Inc. Guidance and review were provided by Rolf Lehming, Director of the Integrated Studies Program, Mary Golladay, Director of the Human Resources Statistics Program, and Jeanne E. Griffith, Director of SRS.

NSF extends its sincere appreciation to the internal reviewers for their many helpful comments and to Roland Tibbetts, retired from NSF, for sharing with us his deep understanding of small business. The report was made more readable and its presentation more pleasing through the efforts of Nita Congress (editor), Anne Houghton, Julia Harriston, and Tanya Gore (SRS's Information Services Group).
